HONG KONG

Press - Info

With "HONG KONG", TYPHOON presents the third single from their upcoming album "FURIOSO" and once again the band delivers Hardrock with their unmistakable signature sound. A powerful guitar riff opens the song before the catchy chorus, with its striking vocal harmonies, takes center stage.

"HONG KONG" combines the energy and authenticity that TYPHOON have stood for more than four decades with a healthy dose of "80s rock". With these track, the band follows the path of the successful single releases "TELL ME NO LIES" and "WHENEVER YOU'RE READY."

Once again "HONG KONG" was produced by Holger Schreiber, who had already worked with the band in the 1990s. His production gives the song the power and clarity it needs to impress on stage, by radio stations and on playlists.

"HONG KONG" will be released at August 21, 2026 on the "Scare-Records" label and will be available on all well known download and streaming platforms.
