

Music to Survive

Pressinfo

WILDHEART was formed in 2017 from former band members of "Merlin's Legacy". All musicians already had many years of stage and band experience.

The band describes their style as a powerful mix of melodic metal and hard rock elements. Aggressive guitar riffs and driving drum rhythms mixed with double-kick passages give the sound a special toughness.

Maike Flüşhöh, the charismatic singer and front woman, is the central element of WILDHEART's stage presentation. With her versatile voice, she gives the sound an unmistakable touch.

WILDHEART stands for well thought-out songs with hard riffs, rousing beats, a powerful voice and catchy choruses. The music immediately catches your ear, stays there and makes you want more. The band is not only convincing digitally or on recordings. WILDHEART's love of handmade music draws them to the stage again and again, where both the audience and the musicians themselves can experience the incomparable thrill of live music

With "Music To Survive", the band is presenting their debut album on the "Scare-Records" label. Eleven original songs and an interesting remake of the Doro Pesch anthem "All We Are" offer an energetic mix of powerful rock songs. The album will be available worldwide from 11.10.2024 on all known portals as download & stream and at selected retailers also on CD.
