

Press - Info

TYPHOON are making an impressive comeback with their new single “TELL ME NO LIES” to mark the band’s 40th anniversary. The song is the second release from their upcoming album “FURIOSO”, which will be released this year. The song makes it unmistakably clear that even after four decades, the band has lost none of its punch.

“TELL ME NO LIES” is an uncompromising rock track with a distinctive riff, melodic driving guitar lines and a catchy hook—energetic, honest, and to the point—exactly what TYPHOON has always stood for.

Holger Schreiber, who previously produced the single “WHENEVER YOU'RE READY” in 2024 and the EP “SOMETIMES,” is once again responsible for the powerful sound. His production gives the song the necessary power and clarity to impress both on stage and on radio stations and playlists.

“TELL ME NO LIES” will be released on the “Scare-Records” label and will be available on all major download and streaming platforms from January 30.

1. Tell Me No Lies 3:34
